

SAEED BOU SHAKRA

Software Developer

Phone: +96176125464 Email: Saeedbs2001.1@gmail.com Address: Aley, Lebanon Portfolio: <https://saeedbs1.github.io>

PROFILE INFO

A results-driven Computer Science graduate with a proven track record in full-stack software development, specialising in building secure, scalable, and high-performance applications. Demonstrates a strong focus on security, efficiency, and maintainability, with a detail-oriented approach to every project. Fast learner who can quickly adapt to new technologies and frameworks, delivering innovative and future-ready solutions. A collaborative team player and effective communicator, thriving in fast-paced environments.

EXPERIENCE

2024 – Present | Remote

Freelance Software Developer

- Collaborated with various clients to develop custom software solutions.
- Handled end-to-end development tasks, including planning, coding, testing, and deployment.
- Ensured projects met performance, usability, and security standards.
- Communicated regularly with clients to gather feedback and iterate on features.
- Quickly adapted to various tools and frameworks according to the requirements of each project.

8/2023 - 1/2024 | Neo Mena Technologies

Software Developer Intern

- Developed an automated Jira reporting system that simplified ticket tracking, eliminated manual reporting, and increased team productivity by 5%.
- Published the “eslint-plugin-neo-technologies” npm package, introducing custom ESLint rules that enforced code consistency, best practices, and reduced common bugs, leading to a 20% improvement in code quality across projects.
- Built a well-rounded skill set, including proficiency in QA testing, expertise in programming languages such as Python and Flask, and mastery of front-end development with React and Material-UI (MUI)
- Wrote and maintained comprehensive unit tests for React components using Jest and React Testing Library, achieving 30%+ test coverage and reducing regression bugs in production releases.

5/2023 - 8/2023 | The Web Addicts

Full Stack Intern

- Designed dynamic front-end interfaces for 2 major projects using HTML, SCSS, and JavaScript, applying user-centric design principles to enhance engagement and navigation.
- Implemented robust back-end solutions for multiple e-commerce projects using Laravel and PHP.
- Ensured secure backend operations by implementing Laravel security best practices and measures.
- Collaborated with cross-functional teams, including designers and QA professionals, to deliver high-quality and visually appealing e-commerce platforms that meet both client requirements and industry standards.

2022 - 2023 | Bugcrowd, Hackerone

Freelance Penetration Tester

- Executed comprehensive reconnaissance and vulnerability assessments to identify potential security threats across web and application environments.
- Performed in-depth security testing and scanning to detect bugs, misconfigurations, and exploitable vulnerabilities.
- Analysed findings and delivered detailed reports with actionable recommendations to enhance overall security posture and reduce risk.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, PHP, C++, SQL
- **Front-End:** React.js, Material-UI (MUI), HTML, CSS, SASS, Responsive Design
- **Back-End:** Node.js, Express.js, Laravel
- **Databases:** MongoDB, MySQL
- **Tools:** Git, Virtual Machines (VM), Postman, Jira & Confluence (Atlassian)
- **Others:** Agile Methodologies, Unit Testing, Linux

CERTIFICATIONS

- Nvidia Certificate Fundamentals of Accelerated Computing with CUDA C/C++
- Cisco Certificate Introduction to Cybersecurity
- Learn Ethical Hacking from Scratch
- The Git & GitHub Bootcamp
- React - The Complete Guide 2023 (incl. React Router & Redux)
- REST APIs with Flask and Python in 2023

PROJECTS OVERVIEW

Jira Report (React, Express, SCSS) – [View Here](#)

- Designed a dashboard to analyse team performance and task management
- Tracked key metrics like story points, ticket rollover, and completion time
- Identified productivity trends and bottlenecks to optimise workflow, improve planning accuracy, and balance team workload

Employee Management System (React, Express, MongoDB) – [View Here](#)

- Developed an Employee Management System to help HR efficiently manage employee records and track work hours
- Implemented features for creating, updating, and listing employee data, along with timesheet management
- Included form validation, search, filtering, and detailed timesheet summaries
- Delivered a streamlined solution to enhance workforce management and organisational productivity

ESLint NPM Package (JavaScript) – [View Here](#)

- Published a custom ESLint plugin with rules to enforce coding standards and improve code quality
- Ensured consistent JavaScript and TypeScript styles through automated code analysis
- Enhanced code maintainability and reduced errors for more reliable projects

E-Commerce Real Estate Platform (Laravel, Blade, SCSS, PostgreSQL) – [View Here](#)

- Built a real estate platform with AI-driven personalised property recommendations
- Integrated advanced analytics for user behaviour, market trends, and property performance
- Enabled agents to optimise strategies through data insights and reporting tools
- Enhanced user experience with tailored search and improved decision-making support

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE - ABET ACCREDITED PROGRAM

NOTRE DAME UNIVERSITY- LOUAIZE

GPA 3.2/4

Shouf Campus

09/2020 - 1/2024

SOFT SKILLS

- | | | |
|---------------------|-----------------------|-------------------|
| • Adaptability | • Team Player | • Self-Motivation |
| • Critical Thinking | • Attention to Detail | • Problem-Solving |

LANGUAGES

English (Fluent), Arabic (Native)
