PROFILE INFO

A highly motivated and detail-oriented computer science graduate with extensive experience in software engineering, specializing in both front-end and back-end development. Skilled at building robust applications with a focus on performance, security, and scalability. Adept at ensuring seamless integration between hardware and software while maintaining high security standards. Strong communicator with a collaborative mindset and a proven ability to thrive in team-oriented environments.

EXPERIENCE

- 8/2023 - 1/2024

Neo Mena Technologies

Full Stack Intern

 - Designed and implemented an automated Jira reporting system to enhance project tracking and improve team productivity.
 - Developed and published the “eslint-plugin-neo-technologies” npm package, featuring custom ESLint rules that focus on best practices, code consistency, and error prevention, leading to improved code quality and enforced coding standards across the codebase.
 - Developed a well-rounded skill set, including proficiency in QA testing, expertise in programming languages such as Python and Flask, and mastery of front-end development with React and Material-UI (MUI)
 - Implemented comprehensive unit tests for React components using testing libraries such as Jest and React Testing Library.
- 5/2023 - 8/2023

The Web Addicts

Full Stack Intern

 - Designed and implemented dynamic front-end interfaces using HTML, SCSS, and JavaScript, focusing on user-centric design principles to optimize engagement and navigation.
 - Collaborated with cross-functional teams, including designers and QA professionals, to deliver high-quality and visually appealing e-commerce platforms that meet both client requirements and industry standards.
 - Conducted thorough testing and debugging to identify and resolve issues, ensuring the stability and reliability of e-commerce applications in a production environment.
 - Developed and implemented robust back-end solutions for multiple e-commerce projects using Laravel and PHP.
 - Ensured secure backend operations by implementing Laravel security best practices and measures.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE - ABET ACCREDITED PROGRAM

NOTRE DAME UNIVERSITY- LOUAIZE

GPA 3.2/4 **Shouf Campus**

09/2020 - 1/2024

TECHNICAL SKILLS

- Git and GitHub
 - Linux and Bash
 - Agile Methodologies
 - Node.js
 - Express.js
 - Docker and VM
 - PHP and Laravel
- ReactJs and MUI
 - SASS
 - HTML and CSS
 - JavaScript
 - MongoDB
 - Python and Flask
 - C++
 - Pen-testing

SOFT SKILLS

- Adaptability
 - Critical Thinking
 - Problem-Solving
- Team Player
 - Attention to Detail
 - Self-Motivation

CERTIFICATIONS

- React - The Complete Guide 2023 (incl. React Router & Redux)
- Nvidia Certificate Fundamentals of Accelerated Computing with CUDA C/C++
- Cisco Certificate Introduction to Cybersecurity
- Learn Ethical Hacking from Scratch
- The Git & GitHub Bootcamp
- REST APIs with Flask and Python in 2023
